BUILDING ACROSS THE SOUTHEAST

With more than two decades of experience building in Alabama, you know you can count on Gray to deliver an exceptional project. Year after year, our team has been meeting the design-build needs of the manufacturing industry, and in that time we've developed an impressive reputation. Today our mark on this industry speaks for itself, with close to 950 manufacturing facilities across the U.S. and consistently ranked in the Top 10 in the nation.* Gray... a leader in manufacturing plant construction for over 56 years.

DUNN DEAL.

If there's one thing we appreciate about repeat business, it's the confidence of our customers that Dunn has their best interests at heart. Which is why we're so honored that three of every four projects we complete are for customers who've hired us before. Some of whom, like Birmingham's Royal Cup, we've now been serving for nearly four decades.

Looking for a contractor you can trust to put *you* first? Give us a call. And consider it done.

Do It Right. Consider It Dunn.

RIDICULOUSLY FAST.

In business, as in nature, speed determines the winner. The quicker you can adapt, enact and react, the better chance you'll have of beating out the other guys. And while that's hard to do on an outdated copper network, we've got a solution: We've built the largest network of fiber optics in the Southeast, creating an infrastructure with the speed and potential to change the way you do business forever. Join us and together we'll take on the future at full speed.

We're opening the future for businesses in the southern U.S.
